

## Investors in Quality

Spaciotempo is committed to providing the highest level of health & safety and construction standards to all our customers.

We significantly invest in the most regulated, recognised and thorough training for all our operational and site staff; which always exceeds the standard industry requirements.

Working with the Industry's most respected training board, The CITB, our continual investment in comprehensive and rigorous training programmes for our Site Managers, Site Supervisors and Installers includes:

- Site Managers Safety Schemes
- Construction Skills Competence Schemes
- Plant Operator Qualifications
- Regular First Aid Training

Each member of staff is able to produce their Construction Skills Cards on request and provide detailed information regarding their level of training and capabilities.

For further information on Spaciotempo's Investment in Quality Scheme, please speak to our Operations Director Michael Harding on 01889 561532.
