Temporary Warehouse

SOLUTION:

A major packaging supplier GT Paper and Packaging came to Spaciotempo for a storage solution. Due to an increase in stock they needed a warehouse that kept their stock dry and secure. While also a supplier that could create a bespoke temporary building to fit in with their brand.

Following their enquiry our Area Sales Manager visited site and worked

collaboratively with the customer to design a solution. Then our own in-house CAD designer, created a bespoke temporary building with olive green walling to match their brand. Within a few weeks, the building as manufactured and installed by own team, giving the customer peace of mind that all regulations were met.

We provided them with a 15m by 5m temporary warehouse on a 5m eave. This consisted of an aluminium frame which meets the same British Safety Standards as a permanent building. A thermo roof and gable, steel olive green cladding, 1 single personnel exit door, 2 electric roller shutter doors, LED lights and 10m of guttering.

SPECIFICATIONS:

- › 15m by 5m on a 5m eave – total area 75sqm
